Photos and Me
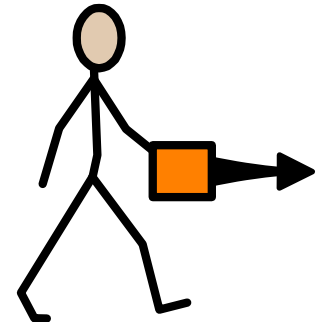

I can be in photos taken
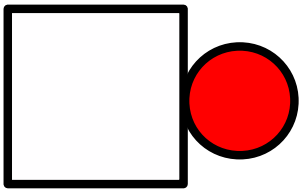

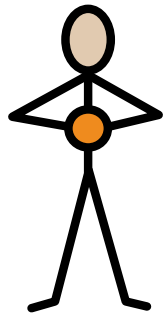

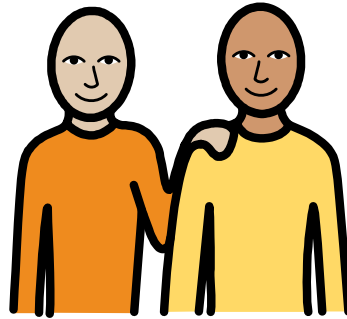

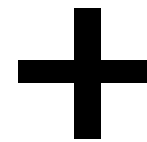

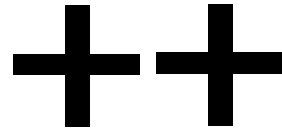

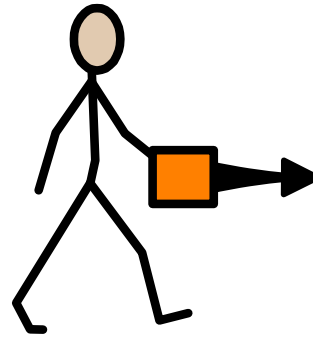

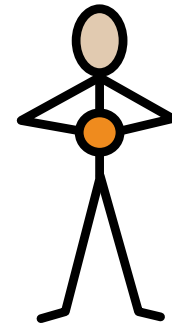

by my friends and family.

I can    also    take    my own

photo.    Like    a    selfie.

People should always ask before they take my photo. I can say yes or no. This is called consent.
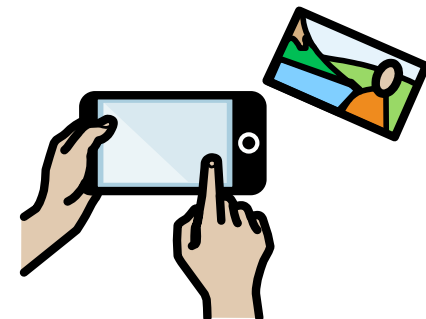

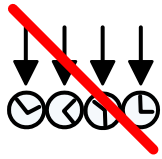

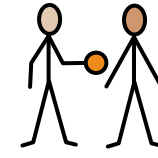

There are times and places

I should never take a photo.
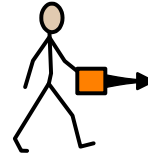

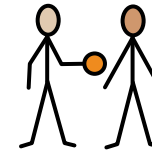

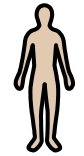

Never take a photo or be in a photo without your clothes on.
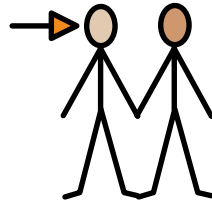

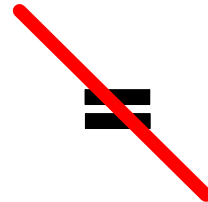

No pictures should ever be taken of your naked body.
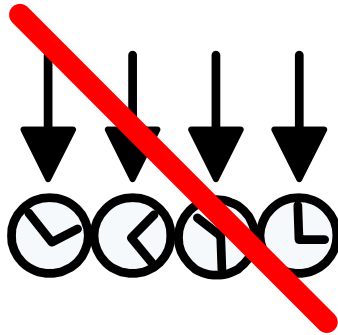

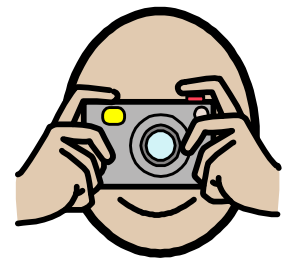

Never take pictures of your friends or family

if they are not completely

dressed.

Never    take pictures    in

toilets   or   bathrooms.

Never take pictures in changing rooms. Like the ones we use when we go swimming.

Never take pictures in changing rooms. Like the ones we use when we go swimming.

Never post a picture of yourself in your underwear or naked online.
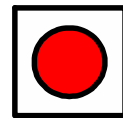

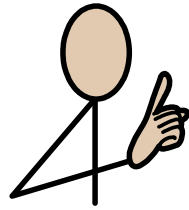

Never use a phone, tablet or computer

to send a picture in my underwear or
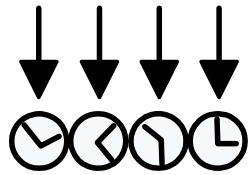

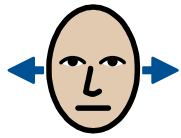

naked

What should I do if someone asks me for a picture in my underwear or of my naked body?
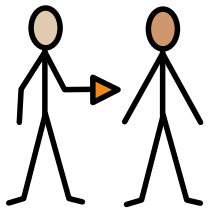

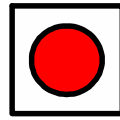

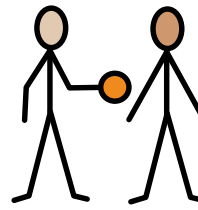

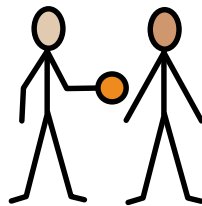

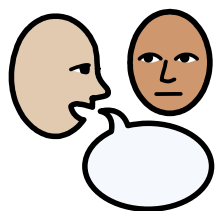

Always say no if an adult or child asks
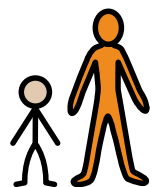

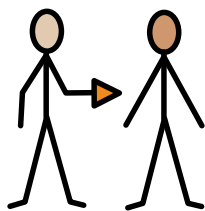

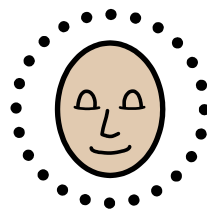

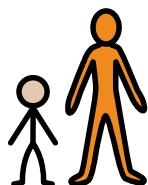

you for a picture in your underwear or
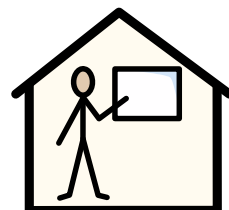

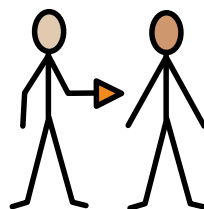

your naked body.
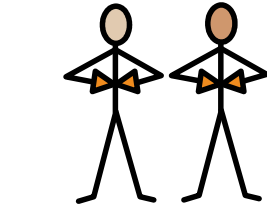

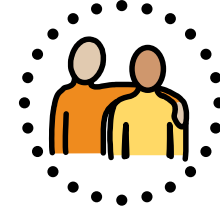

Tell an adult you trust straight away.

Adults at home + school can help you.

We are keeping ourselves safe by covering the parts of our body which are covered by our underwear.
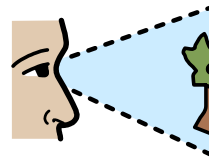

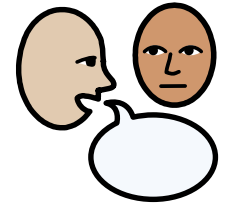

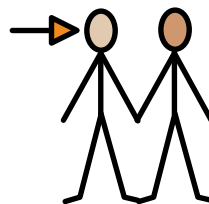

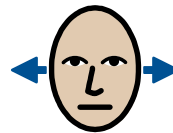

Remember what Pantosaurus says

'If someone asks to see them tell

them NO!'
